

# DIVIDEND VALUE STRATEGY

A SHARED APPROACH SEEKING TO UNCOVER OPPORTUNITIES

## Objective

The Dividend Value Strategy objective is to deliver investment returns that exceed that of the Russell 1000 Value by focusing on undervalued stocks with above-average dividend yields.

We seek long-term inflation protection by investing in stocks in the top 40% of the market ranked by dividend yield; companies that we believe are capable of consistent dividend growth; and what we believe to be undervalued stocks with significant potential for capital appreciation during a full market cycle.

Chartwell Investment Partners, LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Chartwell Investment Partners has been independently verified for the period ended June 30, 2021. Chartwell Investment Partners, LLC (Chartwell), founded in 1997, is an investment management firm registered under the Investment Advisors Act of 1940. Chartwell manages a variety of equity, fixed income and balanced assets for institutional, Sub-Advisory, as well as WRAP/Retail clients. Chartwell's firm assets of \$11.8 billion include \$1.2 billion in Model assets as of 12.31.2021.

On January 3, 2014, Chartwell Investment Partners, LP (Chartwell, LP), entered into a definitive agreement to join TriState Capital Holdings, Inc. (NASDAQ: TSC, TriState Capital). On March 5, 2014, Chartwell, LP sold substantially all of its assets and business to Chartwell, a newly formed Pennsylvania corporation and wholly owned subsidiary of TriState Capital. The roster of employees, investment teams, address and phone number of Chartwell was the same as Chartwell, LP upon closing of the transaction.

Effective July 1, 2015, Chartwell's organizational structure changed from a Pennsylvania corporation to a Pennsylvania Limited Liability Company, LLC. This modification was made strictly for tax purposes only, with no effect on Chartwell's ownership, management, roster of employees or investment advisory services provided to its clients.

On April 29, 2016, TriState Capital closed the acquisition of investment management firm The Killen Group, Inc. (TKG). TriState Capital is integrating all TKG's personnel, operations and assets into Chartwell's business. The TKG assets are included in Firm Managed Assets beginning the period ended Q2 2016.

On April 6, 2018, TriState Capital closed the acquisition of the long-only investment management business of Columbia Partners, based in Chevy Chase, MD. The deal represents approximately \$1 billion of AUM in Fixed Income and Equity relationships. Along with the deal, Columbia Capital has integrated three of Columbia's employees into Chartwell's business. They include a Marketing Director, a Large Cap Growth Portfolio Manager and a Senior Analyst.

Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policy and procedures are designed to calculate and present performance in compliance with the GIPS standards. The Dividend Value Institutional composite has been examined for the period January 1, 2007 to June 30, 2021. The verification and performance examination reports are

available upon request.

The performance data quoted represents past performance; past performance does not guarantee future results. Current performance may be lower or higher than the performance data quoted. The gross returns were calculated on a time weighted basis, including all dividends and interest, accrual income, realized and unrealized gains or losses and are net of all brokerage commissions, execution costs and do not give effect to investment advisory fees, which would reduce such returns. The net returns presented above were calculated by applying the highest institutional investment advisory fee paid by a client of Chartwell. The investment advisory fee schedule for institutional portfolios is 0.70% on first \$30 million, 0.60% on the next \$30 million, 0.50% on the next \$30 million, 0.40% on the next \$30 million, 0.25% on all additional assets. Fees for WRAP/SMA portfolios are different and will vary per platform.

The Russell 1000 Value Index is the primary index for this strategy. The Russell 1000 Value Index returns are provided to represent the investment performance existing during the time periods shown. For comparison purposes, the index is fully invested and includes the reinvestment of income. The returns for the index do not include any trading costs, management fees, or other costs. Index returns have been taken from published sources.

The Dividend Value Institutional composite, composed of portfolios invested in U.S. equities which have a market capitalization of \$2.0B and above was initially created in August 2006 and includes all fee paying and non-fee paying (i.e. incubators), discretionary accounts with comparable investment objectives and a market value in excess of \$250,000. Trade date accounting is utilized and cash equivalents are included in performance returns. Returns are calculated by geometrically linking the monthly and quarterly returns respectively. Valuations are computed and performance reported in U.S. Dollars. Composite dispersion is calculated using the asset-weighted standard deviation method, which determines the dollar-weighted mean return using the beginning-of-year market values. The three-year annualized deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period. The standard deviation is not presented for 2003 through 2010 as it is not required for periods prior to 2011. There is no use of leverage or derivatives. The results of individual accounts and for different periods may vary. Other performance calculation methods might produce different results. Investors should not rely on prior performance data as a reliable indication of future performance.
