

SMALL CAP GROWTH STRATEGY

INVESTING OPPORTUNISTICALLY IN COMPANIES POSITIONED FOR GROWTH

Objective

The Small Cap Growth Strategy objective is to outperform the Russell 2000 Growth Index over the long-term while producing lower risk scores than the benchmark.

The strategy invests in companies that demonstrate competitive growth in revenue, margins and profits. Over the long run, these companies may potentially capture market share, expand margins, and allocate capital to support strong investment performance.

chartwellip.com

This information is for illustrative purposes only, is subject to change at any time, and should not be considered investment advice or a recommendation to buy or sell any particular security."

Chartwell Investment Partners, LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Chartwell Investment Partners has been independently verified for the period ended June 30, 2020. Chartwell Investment Partners, LLC (Chartwell), founded in 1997, is an investment management firm registered under the Investment Advisors Act of 1940. Chartwell manages a variety equity, fixed income and balanced assets for Institutional, Sub-Advisory, as well as WRAP/Retail clients. Chartwell's firm assets of \$11.5 billion include \$1.1 billion in Model assets as of 09.30.2021.

Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policy and procedures are designed to calculate and present performance in compliance with the GIPS standards. The Small Cap Growth Institutional composite has been examined for the period January 1, 2007 to June 30, 2018. The verification and performance examination reports are available upon request.

The performance data quoted represents past performance; past performance does not guarantee future results. Current performance may be lower or higher than the performance data quoted. The gross returns were calculated on a time weighted basis, including all dividends and interest, accrual income, realized and unrealized gains or losses and are net of all brokerage commissions, execution costs and do not give effect to investment advisory fees, which would reduce such returns. The net returns presented above were calculated by applying the highest institutional investment advisory fee paid by a client of Chartwell. The investment advisory fee schedule for institutional portfolios is: 1.00% on first \$20 million,

0.80% on all additional assets. Fees for WRAP/SMA portfolios are different and will vary per platform.

The Russell 2000 Growth Index returns are provided to represent the investment environment existing during the time periods shown. For comparison purposes, the index is fully invested and includes the reinvestment of income. The returns for the index do not include any trading costs, management fees, or other costs. Index returns have been taken from published sources.

The Small Cap Growth Institutional composite, composed of portfolios invested in U.S. equities which have a market capitalization of \$100.0M to \$6.0B, was initially created in July 1997 and includes all fee paying and non-fee paying (i.e. incubators), discretionary accounts with comparable investment objectives and a market value in excess of \$500,000. Trade date accounting is utilized and cash equivalents are included in performance returns. Returns are calculated by geometrically linking the monthly and quarterly returns, respectively. Valuations are computed and performance reported in U.S. Dollars. Composite dispersion is calculated using the asset-weighted standard deviation method, which determines the dollar-weighted mean return using the beginning-of-year market values. The three-year annualized deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period. The standard deviation is not presented for 1998 through 2010 as it is not required for periods prior to 2011. There is no use of leverage or derivatives. The results of individual accounts and for different periods may vary. Other performance calculation methods might produce different results. Investors should not rely on prior performance data as a reliable indication of future performance.

To receive a complete list and description of Chartwell Investment Partners' composites and/or a presentation that adheres to the GIPS standards, please contact Chartwell at (610) 296-1400 or info@chartwellip.com.
